

IONX SUBMERSIBLE ELECTRODES

Submersible Weight
Item #15220

IonX Submersible
Copper/Copper Sulfate Electrode
Item #14640

Submersible Adapter, 8', Red
Item #16305

FEATURES & BENEFITS

- Designed specifically for immersion in liquid electrolytes
- Zero leakage from electrode
- Zero contamination of electrode by electrolyte
- Half-cell potential is independent of electrolyte salinity (seawater, brackish water, fresh water, etc.)
- No need to adjust readings to the copper sulfate scale
- Brass weight included
- To avoid dehydration of the porous membrane during storage, we suggest removing the brass weight and storing the electrode 'tip down' in tap water
- Submersible adapter, sold separately, is available in black or red wire
